## Now everyone can build a great looking website with SiteDesigner

Website visitors are becoming increasingly demanding when it comes to design quality, with research showing a website has 10 seconds to make a good impression before they leave.

“Easily create, manage and host your website all from the same package.”

SiteDesigner is an online website builder that enables you to create, manage and host your website all from the same package. With SiteDesigner anyone can design and publish a website they can be proud of without any technical knowledge.

### Build a website in 3 easy steps...

SiteDesigner is also a perfect framework for web designers and agencies who need to build great looking websites quickly and easily. Advanced tools such as Dropbox Integration, Google Analytics, and PayPal functionality mean you can get even more from your website.

### Why use an online website builder?

- Log in from any computer and make any changes you want, wherever you are
- With no software to install, you can start designing your website instantly
- Your data is stored in our secure purpose built data centre with full backups

## Key Benefits

### Tailor every pixel

Change colours and fonts at the touch of a button, and adding text, pictures, music, and video is as easy as drag and drop. Enrich your website with social media features, maps, contact forms, and e-commerce functionality.

### Hosting included

Your websites will always stay online, so you can continue to focus on running and managing them with confidence.

### Fully responsive editor and templates

Use the responsive editor to instantly view and edit your websites on desktop, tablet and mobile screen widths.

## Features and Specifications

SiteDesigner comes with all the features and support you'll need to build a great looking website you can be proud of. Choose the package right for your needs.

## **SiteDesigner FAQs**

### **Does the package price include hosting?**

Yes, the price is fully inclusive of hosting.

### **Does the package also include email?**

SiteDesigner Plus comes with 5 mailboxes included and SiteDesigner Unlimited allows you to set up 100 mailboxes.

### **Do I need a domain name?**

Yes, SiteDesigner requires an active domain name to be able to publish to the internet.

### **Do SiteDesigner sites have good Search Engine Optimisation (SEO) performance?**

All websites are built in HTML and CSS, rather than Flash, which means they are naturally search engine friendly. For users who want to get more advanced with SEO, you can edit page titles, meta descriptions, add contextual links, and much more.

### **Can I have more than one website?**

You can create and publish one website per package. If you want multiple websites you will have to buy additional SiteDesigner packages.

### **Do you have a blog feature?**

Yes, a blogging feature is available on our SiteDesigner Unlimited package.

### **If I buy the standard package, can I upgrade to Unlimited later?**

Yes you can. All your website files will be included in the upgrade as well, so you won't lose any data.

### **I already have a site. Can I import it into SiteDesigner?**

No, you cannot import a site into SiteDesigner, but you can easily recreate it.

### **Can I upload my own videos to my SiteDesigner site?**

You can upload videos up to 20MB. If your video is bigger than this, we recommended you use a video hosting services like YouTube or Vimeo and embed it.

**I want to show my images—do you have a gallery?**

Yes, we have a Carousel Widget, which lets you create a sequence of images or other elements.

**Can I add adverts to my website?**

Yes, you can.

**Can I set up an online shop?**

E-commerce is available on the Unlimited package. You can use our Google Checkout widget or you can embed another e-commerce platform into your site (such as PayPal).
